

APPLICATION DATA SHEET

Contact Information:

Customer: _____

Contact: _____ Email: _____

Address: _____

City: _____ State: _____ Zip: _____

Phone: _____ Fax: _____

Application:

Magnetic Material Preference: Ceramic: Rare Earth: Recommend:

Product: _____ Bulk Density: _____ lbs/cu. ft.

Powder: Granular Lumpy: Dry: Wet: Other:

Flow Rate: _____ lb./hr. _____ TPH _____ CFM

Method of Conveying
Gravity:
Vertically: or Degree Angle: _____

Spout size: _____ in/mm How full: _____ %

Note: Due to ongoing product development, certain specifications are subject to change without notice.

Pneumatically:

Dilute Phase: _____ Dense Phase: _____

Line Size: _____ in/mm Line Pressure _____ PSI

Conveyor Belt:

Belt width: _____ in/mm Belt Speed: _____ FPM

Burden depth: _____ in/mm

Installation:

Specific Location: Above Flow _____ Below Flow _____ In-Line _____

Access: Easy access: _____ Difficult Access: _____

Restrictions:

Dimensional Limitations: _____ Weight _____

Target Ferrous Contaminants: Large _____ Medium _____ Fine _____

Describe: (size, weight, shape, and source if possible):
